

Sunday School Gamified Learning Platform

Product Requirements Document (PRD)

Version

1.0

Author

Project Owner: Spectra

Target Audience

Children aged 10-12 years attending Sunday School.

1. Executive Summary

The Sunday School Platform is a web-based educational and engagement system designed to increase participation, spiritual growth, attendance, Bible knowledge, and interaction among children aged 10-12.

The platform combines:

- Learning Management System (LMS)
- Gamification
- Bible Education
- Attendance Tracking
- Weekly Challenges
- Reward System

The goal is to transform Sunday School participation into an engaging experience similar to a game while maintaining a strong spiritual focus.

2. Objectives

Primary Goals

- Increase attendance rates.
- Encourage Bible reading.
- Encourage verse memorization.
- Improve engagement between servants and students.

- Create measurable spiritual growth indicators.
- Make Sunday School enjoyable through gamification.

Success Metrics

- Weekly active users.
 - Attendance percentage.
 - Tasks completed.
 - Bible quiz completion rate.
 - Average points earned per student.
 - Number of verses memorized.
-

3. User Roles

3.1 Admin

Description

The platform owner with full access.

Permissions

- Manage all users.
 - Create and manage classes.
 - Assign instructors.
 - Create global challenges.
 - Manage points system.
 - Create rewards.
 - Manage badges.
 - View analytics.
 - Moderate content.
 - Manage games.
 - Manage announcements.
 - Override points.
-

3.2 Instructor (Servant)

Description

Responsible for managing assigned classes.

Permissions

- Upload lessons.
 - Create tasks.
 - Create quizzes.
 - Record attendance.
 - Approve submissions.
 - Award points.
 - Send announcements.
 - View student progress.
 - Manage prayer requests.
-

3.3 Student (Served Child)

Description

Main platform user.

Permissions

- View lessons.
 - Complete tasks.
 - Take quizzes.
 - Play games.
 - Earn points.
 - View leaderboard.
 - Redeem rewards.
 - Submit prayer requests.
 - Track achievements.
-

4. Core Features

4.1 Authentication System

Features

- Login
- Logout
- Password Reset
- Role-based Access Control (RBAC)

User Types

- Admin
 - Instructor
 - Student
-

4.2 Dashboard

Student Dashboard

Displays:

- Profile Avatar
- Current Level
- XP Progress Bar
- Total Points
- Weekly Challenges
- Leaderboard Position
- Recent Achievements
- Upcoming Tasks

Instructor Dashboard

Displays:

- Number of Students
- Attendance Statistics
- Pending Task Reviews
- Class Ranking
- Recent Activity

Admin Dashboard

Displays:

- Total Users
 - Active Users
 - Attendance Reports
 - Top Students
 - System Analytics
-

4.3 Attendance Management

Instructor records:

- Present
- Absent
- Excused

Students can view:

- Attendance percentage
- Attendance history

Points awarded automatically for attendance.

4.4 Lessons Module

Each lesson contains:

- Title
- Description
- Bible References
- PDF Files
- Videos
- Images
- Attachments

After lesson completion:

- Quiz unlocks
 - Challenge unlocks
-

4.5 Tasks System

Task Types

Spiritual Tasks

Examples:

- Memorize verse
- Read chapter
- Pray daily

Social Tasks

Examples:

- Help parents
- Visit someone
- Perform a good deed

Service Tasks

Examples:

- Invite a friend
- Participate in church activity

Submission Types

- Text
- Image
- Audio
- Video

Workflow

Student submits → Instructor reviews → Approve/Reject → Points awarded

4.6 Quiz System

Question Types

- Multiple Choice
- True/False
- Match Pairs
- Verse Completion

Rewards

Points awarded based on score.

Example:

80-100% = 20 points

60-79% = 10 points

Below 60% = 5 points

5. Gamification System

5.1 Points System

Students earn points through:

Activity	Points
Attendance	20
Mass Attendance	25
Memorize Verse	15
Complete Task	20
Quiz Completion	10
Daily Login	5

Students arrange scrambled Bible verses.

Rewards:

- 10 points.
-

Game 3: Memory Match

Match:

- Saints to images.
- Prophets to stories.
- Events to Bible references.

Rewards:

- 15 points.
-

Game 4: Treasure Hunt

Students search Bible references.

Rewards:

- 20 points.
-

Game 5: Bible Adventure

Future feature.

Interactive story mode.

Players:

- Travel through Bible locations.
- Solve puzzles.
- Answer questions.

Rewards:

- 50+ points.
-

7. Weekly Challenges

Examples:

- Memorize verse.
- Read 3 chapters.
- Attend liturgy.
- Complete all tasks.

Rewards:

- Bonus points.
 - Special badges.
-

8. Reward Store

Students spend points.

Virtual Rewards

- Avatar Frames
- Titles
- Special Effects
- Themes

Physical Rewards

Managed by instructors:

- Books
 - Notebooks
 - Stationery
 - Gifts
-

9. Prayer Requests

Students can submit:

- Prayer requests.
- Thanksgiving requests.

Instructors can:

- View requests.
 - Mark as prayed for.
 - Respond privately.
-

10. Announcements

Created by:

- Admin
- Instructor

Examples:

- Trips
- Events
- Mass schedules
- Competitions

Notifications sent automatically.

11. Analytics

Admin Reports:

- Attendance trends.
- Top students.
- Most active class.
- Task completion rates.
- Quiz performance.

Instructor Reports:

- Class attendance.
- Student engagement.

- Challenge participation.
-

12. Technical Requirements

Frontend

- Next.js
 - React
 - TypeScript
 - TailwindCSS
 - Shadcn UI
-

Backend

- NestJS or
 - ASP.NET Core
-

Database

PostgreSQL

Authentication

JWT

Role-Based Access Control

File Storage

Cloudinary or AWS S3

Deployment

Frontend:

- Vercel

Backend:

- Railway / Render

Database:

- Neon PostgreSQL
-

13. MVP Scope

Version 1 should include:

- ✓ Authentication
 - ✓ User Roles
 - ✓ Dashboard
 - ✓ Attendance
 - ✓ Lessons
 - ✓ Tasks
 - ✓ Points
 - ✓ Levels
 - ✓ Badges
 - ✓ Leaderboard
 - ✓ Announcements
 - ✓ Basic Quiz System
-

14. Future Features

Phase 2:

- Bible Games

- Reward Store
- Prayer Requests
- Push Notifications

Phase 3:

- Mobile App
 - AI Quiz Generator
 - AI Lesson Summaries
 - Bible Adventure RPG
 - Parent Portal
 - Church Analytics Dashboard
-

15. Success Vision

The platform should feel like a mix of:

- Sunday School
- Educational LMS
- Children's Achievement System
- Gamified Learning Platform

The child should feel excited to log in every day, complete spiritual activities, earn rewards, and grow closer to God while interacting with friends and servants.
